What Wild Mystics is

Wild Mystics is an open-world creature-collecting RPG for web, Android and iOS: catch, train, battle and evolve over 150 Mystics across a living island, in the spirit of Miscrits and Pokémon, with turn-based battles staged and paced like Clair Obscur: Expedition 33 (real-time parries, dodges and QTEs inside a turn-based structure).

The v3 overhaul — what's changing

- **A ten-times bigger, designed world.** A 2 km island with ten lands ringed around a central mountain, Mount Aether, visible from everywhere.
- **Real progression, not "no clue where to go."** A main story, side quests, a compass, an on-screen tracker and a 3D beacon always point at your next objective.
- **A proper new-game opening.** New players start with nothing; a town guard walks up, a scholar offers three starters, and a rival kicks off the first battle.
- **Locked lands, opened by play.** Sealed Warden Gates open only once you beat the neighbouring Guardian; fog of war covers the map until explored; hidden dungeons are found by searching, at night, or via a quest.
- **Eleven hidden dungeons.** Each is a real interior with patrols, puzzles, chests and a boss.
- **Every town has real shops.** An outfitter and a specialty shop in each of the nine towns, plus a rotating traveling merchant.
- **Better monsters.** A stylised toon shading pass with rim light and outlines, shiny variants, giant "Alpha" wild Mystics, and 31 new species and Guardians for the four new lands.
- **A full visual and UI overhaul.** A new colour palette, new fonts, a redesigned HUD, and every menu fitting the screen with no scrolling, on desktop and on a phone in landscape.
- **Better graphics throughout.** A sculpted, eroded terrain; a real sky with clouds, stars and aurora; day/night lighting; dense forests and grass; and a hand-painted atlas-style world map.

How this pack is meant to be used

Every card below pairs a short in-game description with a complete, ready-to-paste prompt for an image model (Midjourney, GPT-Image, Flux, Seedream). Generate a clean front-view concept, then follow the existing asset pipeline in `ASSET_PROMPTS.md` (image → 3D via Hunyuan3D/Tripo/Meshy → Blender cleanup → rig → `tools/add-asset.mjs`) to drop your own art into the game. Anything you don't replace keeps using the free CCo stand-ins.

Asset	Tris	Textures	Notes
Wild creature	4k–15k	1× 2048 PBR	Height per the game's data, 0.7–2.2 m
Guardian / final boss	15k–50k	1–2× 2048	5–9.5 m, auto-scaled in-game
NPC	8k–25k	1× 2048	1.6–1.9 m, biped rig with 8 standard clips
Land / environment art	—	—	Reference-only concept art; guides the terrain and look workstreams' palette and mood, not a direct 3D import
Dungeon interior	—	—	Reference-only mood art for theme, palette and prop dressing

Ten lands around Mount Aether

Environment concept-art prompts for the world's ten regions, tier 1 (starting) to tier 6 (the finale). Use these to art-direct the terrain palette, sky mood and vegetation per land.

Verdant Vale

Tier 1

Where every journey begins

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — rolling sunlit meadows and gentle hills around a cozy timber-frame hub town, a lazy river, wildflowers, warm gold-green palette, painterly Ghibli-esque pastoral fantasy

Mirror Lakes

Tier 2

Still waters, restless depths

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — a hundred mirror-still lakes among pine hills, soft morning mist, stilt houses on the water, teal-and-silver reflections, tranquil and slightly eerie depths

Sapphire Coast

Tier 2

Salt wind and sunken bells

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — white sand coves, sea stacks, tide pools and cliffs below a lighthouse harbour town, bright turquoise sea, salt-spray light, cheerful nautical fantasy

Mistveil Marsh

Tier 3

Where the fog remembers names

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — flat wetland of sunken boardwalks, glowing spores, hanging lanterns and thick fog, muted green-grey palette, quiet and a little melancholy

Ember Scar

Tier 3

Ash, obsidian and old fire

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — a volcanic caldera of charred mesas, glowing lava channels and a basalt forge town, deep orange-and-black palette, heat haze, dramatic dark fantasy

Elderwood

Tier 4

The forest that dreams

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — ancient towering trees older than the world, lantern-moss, fireflies, a treehouse village built into giant roots, deep emerald and gold dappled light, wondrous and dreamlike

Sunscorch Dunes

Tier 4

Gold sand over sleeping giants

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — endless golden dunes, glassy salt flats, one green oasis, a sandstone-domed caravan town, warm ochre-and-turquoise palette, mirage heat shimmer

Stormreach Peaks

Tier 5

The sky remembers every storm

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — frozen lakes and pine ridges climbing to snow-capped summits, a stone mountain-fortress town, cool blue-white palette, thin crisp mountain light, aurora hints

Glimmer Hollows

Tier 5

Where the mountain keeps its light

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — crystal canyons humming with trapped lightning, a mining town lit by glowing crystal lamps, violet-cyan palette, bioluminescent geode light

Aether Crown

Tier 6

The storm at the top of the world

Environment prompt: Painterly stylized fantasy game environment concept art, wide establishing shot, Clair Obscur × Zelda BotW mood, dramatic lighting, no text, no watermark — the ruined summit plateau of a central sacred mountain, ancient Sky Warden ruins, a churning storm and aurora overhead, dramatic god-tier finale vista, gold-and-violet palette

Elder Maple

Mystic Scholar

Prompt: Stylized fantasy creature concept art for a premium 3D monster-collecting RPG, painterly Belle-Époque fantasy mood inspired by Clair Obscur: Expedition 33, appealing chunky readable silhouette, big expressive eyes, hand-painted PBR materials, soft rim light, full body, neutral standing A-pose, front view, orthographic, centred, plain light-grey background, no cast shadow, no text, no watermark — an elderly robed scholar with a long grey beard and half-moon spectacles, warm cream-and-teal scholar robes, holding an ancient tome, gentle wise smile

Kai

Rival

Prompt: Stylized fantasy creature concept art for a premium 3D monster-collecting RPG, painterly Belle-Époque fantasy mood inspired by Clair Obscur: Expedition 33, appealing chunky readable silhouette, big expressive eyes, hand-painted PBR materials, soft rim light, full body, neutral standing A-pose, front view, orthographic, centred, plain light-grey background, no cast shadow, no text, no watermark — a cocky teenage rival with messy dark hair, a confident lopsided grin, a light rogue-style traveling outfit, hands on hips in a challenging pose

Magister Vesper

Magister of the Hollow Veil

Prompt: Stylized fantasy creature concept art for a premium 3D monster-collecting RPG, painterly Belle-Époque fantasy mood inspired by Clair Obscur: Expedition 33, appealing chunky readable silhouette, big expressive eyes, hand-painted PBR materials, soft rim light, full body, neutral standing A-pose, front view, orthographic, centred, plain light-grey background, no cast shadow, no text, no watermark — a tall masked villain in dark violet-and-black robes with silver filigree, an ornate porcelain mask hiding the face, an air of cold, elegant menace

Pipeline reminder

- **1. Concept image** — generate 4 variations from the prompt above, pick the best.
- **2. Clean front view** — re-prompt for a single centred full-body A-pose on plain grey, for image-to-3D tools.
- **3. Image → 3D** — Hunyuan3D 2.5, Tripo, Meshy or Rodin, PBR textures, triangle budget per the table on page 2.
- **4. Blender cleanup** — apply scale, face +Z, feet on origin, decimate if heavy.
- **5. Rig + animate** — Mixamo for bipeds; Auto-Rig Pro / Rigify / Tripo auto-rig for quadrupeds, flyers and blobs.
- **6. Import** — `node tools/add-asset.mjs creature <id> ~/Downloads/<file>.glb --height <m>`.
The full per-asset spec (element list, evolutions, exact ids) lives in `ASSET_PROMPTS.md` and `src/data/species.ts`.
