03 EXPLORATION

An open world stitched from six lands, with a real day/night cycle.

MOVING AROUND

Sprint, jump and double jump (with a spin) across terrain. Steep cliffs, deep water and lava block you. Your camera pulls in when a building or boulder gets between you and it.

Riding: 16 large Mystics are rideable (marked **Mount** in the Mystidex). Riding is faster and wild Mystics can't bump into you — press **R** or tap Ride.

FINDING MYSTICS

Every land has its own table. Mystics appear in five ways:

- **Roaming** — visible in the world. Some chase you (red "!" label).
- **Tall grass** — walking through it can trigger a hidden encounter (Lure Incense doubles the rate). Outside the Vale there's a 22% chance of a second Mystic joining.
- **Glimmering nests** — search sparkling bushes: 50% hidden Mystic (double shiny odds), otherwise loot.
- **Night only** — some Mystics only come out after dark, fading at dawn.
- **Fishing** — cast at ripples; land the catch in a reel minigame to hook aquatic Mystics or treasure.

SHINY MYSTICS

Each Mystic has a **1 in 300** chance to be shiny: a shifted colour palette, sparkles in the world and a special frame everywhere. **Shimmer Incense** triples the odds for 5 minutes, glimmering nests double them, and eggs from a shiny parent get **4×** odds (Guardian Spirit eggs 2×).

DAY & NIGHT

A full day lasts 24 real minutes by default (adjustable). Nights bring stars, moonlight, glowing lanterns, night-only Mystics and night-only evolutions. Rest at an inn (Sanctuary) to skip to nightfall or dawn.

WAYSTONES & FAST TRAVEL

Three **Waystones** per land attune automatically when you walk up to them. Towns join your map when you first visit, and resting at a Guardian's **Expedition Flag** adds a camp waypoint. Open the Map to fast travel to any attuned point, or straight home.

GATHERING

Sixteen resource nodes per land yield **Timber, Stone, Ore, Crystal, Fiber** (they regrow after 4 minutes). Materials build and upgrade your Homestead and craft orbs and tonics.

TAMERS

18 wandering Tamers (three per land) wait with a "!" marker. Beat them for Gold, Aether, orbs, stones and relics. You can rematch each one once a day for half rewards (their Mystics come back 2 levels stronger).

GUARDIANS

Each land's Guardian waits in an arena beside an Expedition Flag. Guardians have huge HP, a Break gauge, **red** unblockable strikes and **gold** strikes you must jump. Below 50% HP they become **enraged**. Winning grants a **Guardian Spirit Egg** (a legendary Mystic), rare orbs, tonics and Aether.

04 BATTLE SYSTEM

Turn-based, but every hit is timed — Expedition 33 reflexes meet Pokémon & Miscrits collecting.

TURN ORDER & AP

Up to **three** of your team fight at once (the fourth waits in reserve). A **timeline** at the top shows who acts next — it follows **Speed**. Basic **Attack** earns +1 **AP**; **Skills** spend AP (up to 9 stored). Each Mystic knows up to four moves plus Strike.

★ TIMED HITS

When you attack, a ring shrinks onto the target for every hit. Press as it meets the inner ring: **Perfect** (bonus damage, more Break, Burst charge), **Good**, or **Miss**. Pressing early counts as a whiff and locks you out for 0.45 s, so mashing never works.

DEFENDING

Enemy strikes show a blue ring. **Parry** right on impact (a tight window) or **Dodge** (a wider window). Parry **every** hit of a move to trigger a **counter-attack**. **Red strikes** can't be parried — dodge them. **Gold strikes** are shockwaves — **jump** over them. Accessibility options add wider windows or auto-defend.

✨ BREAK & BURST

Every hit fills the enemy's **Break** gauge; when full the foe is **Broken**: stunned, takes extra damage and is 1.7× easier to capture. Perfect hits and parries charge your team's **Burst** gauge; at 100% any Mystic can unleash its element's **ultimate** (**B**).

ELEMENT WHEEL

Two triangles: Fire > Nature > Water > Fire and Earth > Storm > Wind > Earth. Super-effective hits deal ×1.5; resisted hits ×0.66. **Void** is the boss element: it deals ×1.15 to everything and takes neutral damage.

ATK ↓ / DEF →	FIRE	WATER	NATURE	EARTH	STORM	WIND	VOID
FIRE	•	×0.66	×1.5	•	•	•	•
WATER	×1.5	•	×0.66	•	•	•	•
NATURE	×0.66	×1.5	•	•	•	•	•
EARTH	•	•	•	•	×1.5	×0.66	•
STORM	•	•	•	×0.66	•	×1.5	•
WIND	•	•	•	×1.5	×0.66	•	•
VOID	×1.15	×1.15	×1.15	×1.15	×1.15	×1.15	×1.15

STATUS EFFECTS

STATUS	TAG	EFFECT
Burn	BRN	Loses 6% HP each turn, ATK −20%.
Poison	PSN	Loses 8% HP each turn, worsening.
Paralysis	PAR	25% chance to lose the turn, SPD −30%.
Sleep	SLP	Skips turns; may wake when hit.
Freeze	FRZ	Frozen solid; thaws over time or from fire.
Confusion	CNF	33% chance to hit itself.

CAPTURING

Only wild Mystics can be captured. Chance = species catch rate × (1.35 – HP%) × Broken bonus × orb × status × level factor, +12% per Perfect in the capture QTE. The target shows its exact chance before you throw.

ORB	EFFECT	PRICE
Mystic Orb	Standard binding orb.	60 g
Radiant Orb	×1.6 capture chance.	180 g
Dusk Orb	×2.5 at night and in Mistveil Marsh.	200 g
Tide Orb	×2.2 on Water and Storm Mystics.	200 g
Ember Orb	×2.2 on Fire and Earth Mystics.	200 g
Astral Orb	Never fails. Summon-only.	Summon only

ITEMS IN BATTLE

ITEM	EFFECT
Tonic	Restores 50% HP.
Mega Tonic	Fully restores HP.
Elixir	Revives a fainted Mystic at 50% HP.
Ether	Restores 3 AP in battle.
Cleansing Salt	Cures any status effect.

Swap brings in your reserve; **Flee** works from wild battles only (chance rises with Speed). **Auto battle** lets your team fight on its own; speed up to 2×.

REWARDS

Victory grants XP to every Mystic (full share to those that fought, half to the rest), Gold, and **Elementum shards** of the defeated Mystics' elements. Tamer battles pay 1.5×. Losing sends you back to the last Sanctuary or camp you rested at and costs 10% of your Gold.

05 RAISING MYSTICS

Levels, evolution, rarity, genes, natures, abilities, relics and more.

LEVELS & MOVES

Mystics level up to **60**, learning new moves along the way (see each Dex entry). A Mystic keeps four moves; forgotten moves can be re-learned for free at the Move Master, who can also **enhance** a move up to rank 5 (+12% power per rank, -1 AP at rank 5).

EVOLUTION

Mystics evolve by **level**, by using an **evolution stone**, or only at a certain **time of day** — many families branch. Evolved forms are one rarity tier higher. Evolution happens after battle, or from the Team tab when conditions are met.

Stones: **Fire Stone**, **Water Stone**, **Leaf Stone**, **Earth Stone**, **Thunder Stone**, **Wind Stone**, **Void Stone** (sold at different Outfitters in each land).

RARITY

TIER	STAT MULTIPLIER	SUMMON RATE
COMMON	×1	55%
RARE	×1.04	30%
EPIC	×1.08	11.4%
EXOTIC	×1.12	3%
LEGENDARY	×1.2	0.6%

GENES

Every Mystic has hidden genes (0–15) for HP, ATK, DEF and SPD, graded **S / A / B / C / D** by their total. Breeding passes on the best genes of both parents with a chance to mutate higher.

AWAKENING (STARS)

Duplicate summons and released Mystics give **Mystic Essence**. Spend it to awaken a Mystic up to **5★** (+5% all stats per star). At **3★** a Mystic gains a third relic slot.

Essence per duplicate: Common 10 · Rare 30 · Epic 80 · Exotic 200 · Legendary 500.

ELEMENTUM INFUSION

At an Elementum Shrine, offer shards of a Mystic's own element to infuse it up to 10 times (+3% all stats each). The shrine can also **attune** a Mystic to its other natural ability.

NATURES

NATURE	+10%	−10%
Brave	ATK	SPD
Adamant	ATK	DEF
Fierce	ATK	HP
Bold	DEF	ATK
Relaxed	DEF	SPD
Stalwart	DEF	HP
Timid	SPD	ATK
Jolly	SPD	DEF
Hasty	SPD	HP
Hardy	HP	SPD
Gentle	HP	ATK
Calm	HP	DEF
Serene	—	—

RELICS

Relics are charms equipped in 2 slots (3 at 3★). They add stats and effects such as +XP, capture bonus, burst charge or status immunity. Upgrade them to level 5 at your Homestead's Relic Forge. Full list in the appendix.

BREEDING & EGGS

At a Hatchery, leave two level-5+ Mystics together (150 Gold). The egg hatches as **Parent A's first form**, inherits the best genes of both parents and learns **Parent B's** latest move. Eggs hatch as you walk (300–460 m; a Hatch Charm halves it). The nest holds three eggs. Your first visit earns a free Mystery Egg. Legendary Mystics can't breed.

06 TOWNS & SERVICES

Full towns offer every service; frontier outposts keep the essentials.

SERVICE	WHAT IT DOES
Sanctuary (Healer)	Fully heals every Mystic for free, sets your respawn point, and lets you rest until nightfall or dawn.
Outfitter	Orbs (Mystic, Radiant, Dusk, Tide, Ember), supplies (Tonics, Elixirs, Ethers, Cleansing Salt, Lure Incense) and rare goods (Wisdom Scroll, Shimmer Incense, Hatch Charm and that land's evolution stones).
Hatchery	Breed pairs, track eggs, collect your free Mystery Egg.
Elementum Shrine	Infuse Elementum for permanent stats; attune abilities.
Move Master	Enhance moves, re-learn forgotten moves.
Keeper	Swap Mystics between your team and storage.
Wishing Spire (Hearthwick)	Summon Mystics and relics.
Quest Board	Accept side quests posted by the townsfolk (six at a time).

PLATFORMS & PERFORMANCE

Runs in any modern browser (installable as an app, works offline after the first load), and as native Android and iOS apps. The game picks a quality tier for your device, streams Mystic models on demand, caches the baked world, lowers resolution briefly when the frame rate dips, and pauses 3D rendering behind full-screen menus to save battery.

11 MYSTIDEX — 122 MYSTICS

Normal and shiny colours shown side by side. Numbers match the in-game Mystidex.
